

SPAN

# Welcome to the SPAN Home

**SPAN Drive**  
Smart EV Charger

**SPAN Panel**  
Smart Electrical Panel

## SPAN empowers homeowners to prepare for an electrified future

### Why SPAN?

#### Control your home's energy usage

Manage and monitor all of your home's circuits in real time with the SPAN Home app.

#### Resilient whole-home backup

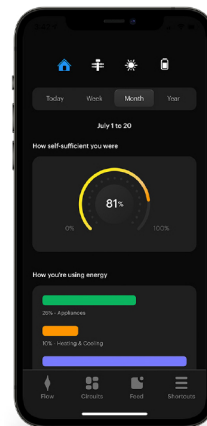

SPAN pairs with solar + storage for secure and unrivaled backup so you never experience power interruptions during an outage again.

#### Prepare for future home upgrades

Enable your home for solar panels, battery storage, heat pumps, EV chargers and other heavy electrical loads.

#### Charge your EV faster with SPAN Drive

SPAN Drive works with our panel to provide the best home EV charging experience available today.

**SPAN**

# The fastest universal home EV charger currently available

## Drive on sunshine

SPAN Drive works in tandem with our flagship panel to unlock the true potential of your home's solar and battery storage system so you can charge faster, better and smarter.

## SPAN Drive pairs with your home for a **holistic & unparalleled** charging experience

- ✓ Unlocks Level 2 charging for any home
- ✓ Looks as good as it performs
- ✓ Charge multiple EVs—even during an outage

Arriving: **June 2022** as a \$500 accessory to the SPAN Panel

### Solar

Have solar panels on your roof? SPAN Drive enables charging with 100% pure solar energy in real time.

It's the **cheapest, cleanest** way to charge your EV, period.

### Solar + Battery

Have a home battery installed? SPAN lets you choose how to deploy your stored energy during an outage—including charging your EV so you can get away until power from the grid is restored.

# Prepare your home for an electrified future with SPAN

## Download the app & experience a simulated SPAN Home

No purchase or login required

Leave home and forget to turn the oven off?  
No need to panic. Simply open the app and  
turn the circuit off.

"Alexa, it's time for homework—tell SPAN to turn off power to the kids' game room."

## Let our customers say the rest

"I have an older home and SPAN was the first step in my modernization journey. SPAN is now the center of my smart home. I've been waiting most of my life for this product."

—Terry F.

"A long-overdue, borderline genius product that puts much-needed control back into the hands of homeowners."

—Wired.com

"Upgrading my home's electric panel was a 'once in a lifetime' decision. The incremental cost of SPAN vs. a basic panel was well worth it for the control and insight I now have into my home."

—Rob B.
